Here's Music for Your Home

Estey Organ

C O R P O R A T I O N

Founded in 1846

Brattleboro, Vermont

5 West 52nd Street
New York City

Room 830, 64 East Jackson Blvd.
Chicago, Illinois

12 REASONS WHY YOU'LL ENJOY A REAL

EASY TO PLAY—If you can play a piano, you can master the operation of an Estey Organ at a single sitting. You'll find the same standard keys and keyboard with which you are already familiar. In fact, the moderate priced single-manual Estey Organs are far *easier* to learn on than a piano.

EASY TO SING TO—If your family or friends enjoy singing—if you are teaching your children to love song—music teachers will tell you the full, rich sustaining tone of an Estey Organ is easier to pitch one's voice to, and blends more pleasantly as an accompaniment.

IDEAL FOR TEACHING CHILDREN—Unlike the piano, the Estey Organ responds with *full* tone to the least pressure of the key. From the very beginning, a child can enjoy playing this Organ, because even the most elementary airs are clothed with the full beauty of the *true* organ tone.

CLEAR NATURAL TONE, NOT ELECTRONIC—Estey Organs for the home are true reed *organs*. Their full rich music is produced in the *same* way as that of the great organs you have admired in church and at concerts—naturally. That is why connoisseurs of music find Estey Organs so thoroughly satisfactory.

NO TONE DISTORTION, NOT AMPLIFIED—The full tone of the Estey Organ is natural—not artificially amplified. Although the volume will surprise you, it completely lacks the unpleasant distortion, the vibration so often associated with electrical amplification.

BEAUTIFUL PIECES OF FURNITURE—An Estey Organ takes its rightful place in your living room as a gracefully designed piece of furniture that adds to the beauty of your home. Look carefully at the case designs shown in the following pages—and notice how well they will fit into your decorative scheme.

REED ORGAN BY ESTEY FOR YOUR HOME

COMPACT, EASY TO MOVE—One of the most remarkable features about an Estey Organ is its compact size. No necessity to hire a moving company if you want your Estey Organ in another house or room—two men can carry it with ease.

DOESN'T GET OUT OF TUNE—The pitch of every note is built into the Estey Organ—it is *permanently* tuned. The tone of an Estey Organ never goes "sour," no matter what the temperature or humidity. This is an important consideration—particularly if you live near sea-shore or lake.

AN ESTEY ORGAN AT EVERY PRICE—Prices of Estey Organs range from \$32.50—f.o.b. factory—up to \$1075. No need to deprive yourself of the enjoyment of a *real* Organ—it's easy to make your selection at a price you can afford.

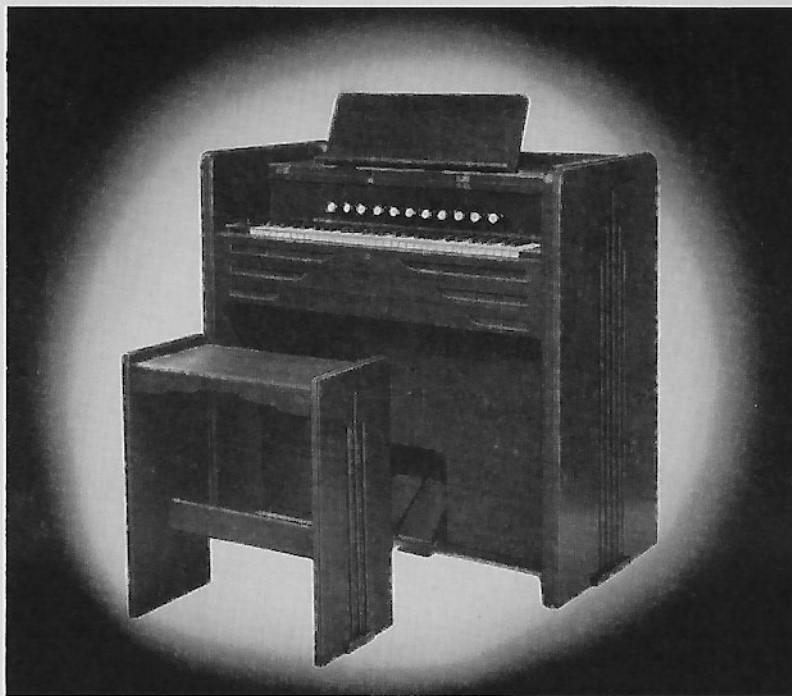

MADE BY THE MOST EXPERIENCED MANUFACTURERS IN THE FIELD—Four generations of the same family have been making Organs of world-famous tone and quality ever since 1846. No wonder the *craftsmanship* behind the Estey Organ you choose is unsurpassed.

MOST MODELS ARE MOTOR-OPERATED—An Estey Organ frees you from the necessity of foot-pumping. The majority of Estey Organs are equipped with silent motor blowers which allow you to concentrate on playing—and enjoying the music.

VARIETY OF TONE FOUND IN NO OTHER INSTRUMENT—Not until you have played an Estey Organ can you appreciate its tremendous range and variety—in mood, in volume, and in tonal color.

THIS ESTEY ORGAN CHOSEN FOR HOUSE

ESTEY MODERNISTIC ORGAN

The Estey Modernistic Organ is an instrument for the home. It offers a delicacy and variety of music, a warmth, purity, and richness of tone superior to other instruments that are several times its price. The volume of this Organ is ample for the largest living room. Its warm and resonant tone gives a faithful interpretation to the compositions of the greatest masters—yet this amazingly versatile instrument is equally effective when playing the latest popular song. For the most delightful feature of this Organ is that *it's so easy to play*. If you can play the piano—you can play this Organ—and it's *far easier to learn* to play than a piano.

MOTOR OPERATED

A silent, self-contained electric blowing unit is available with the Modernistic Organ—freeing you from the necessity of foot-pumping. You have only to plug the connection in any electrical outlet. *Specify AC or DC Current.*

PRICES—F.O.B. FACTORY

Modernistic Organ (Pedal-Operated)	\$160 to \$180
Modernistic Organ (Motor-Operated)	\$245 to \$415

Prices vary according to the type of action. The Pedal-Operated Modernistic Organ is available with Action 32 or 35. The Motor-Operated Modernistic Organ is available in Action 32, 35, 38, 97, or 98. Weight when packed 550 lbs.

See page 15 for description of actions.

BEAUTIFUL'S RADIO CITY HOUSE

. *For its* **TONE**
. *its* **BEAUTY**
. *and its* **PRICE**

When "House Beautiful" selected the furniture and appointments for its "ideal Radio City House," beauty, convenience, and price were the criteria. That's why the musical instrument selected for this "ideal home" was the Estey Modernistic Organ.

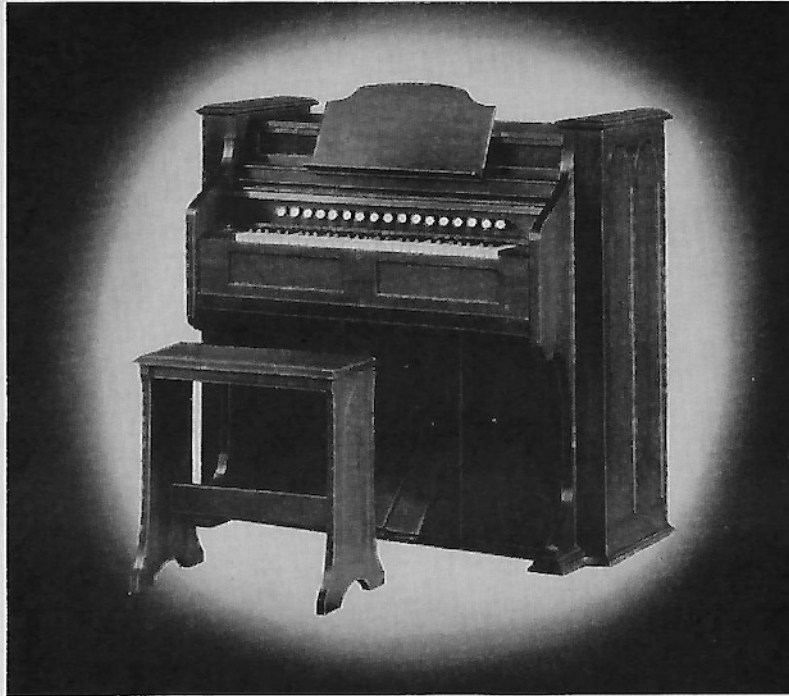

The tone of this Organ was designed with residential requirements exclusively in mind. Its variety and brilliance lend themselves to every musical purpose—for song, for dancing, for the music of the great organ composers. Attention, for this reason, was laid on purity of sound and wealth of overtones rather than on excessive volume.

The Modernistic Organ was carefully planned, too, as a beautiful piece of furniture, simply designed—compact enough to fit anywhere—light enough to be conveniently moved—and so good-looking that it will *add* to the appearance of the finest living room.

Yet its *price* is *amazingly low*—far less than any other organ of similar quality—and a fraction of what you would pay for any other musical instrument of comparable variety, range, and beauty of tone.

Furnished in Walnut finish. Back is finished. Bench to match. Case for actions 32, 35. Length 3 feet 8 inches. Depth 1 foot 9½ inches. Height 3 feet 6 inches. Weight boxed with motor 380 lbs. Weight boxed with pedals 350 lbs. 33 cubic feet. Case for actions 38, 97, 98. Length 4 feet 5½ inches. Depth 2 feet 3½ inches. Height 3 feet 7¼ inches. Weight boxed 550 lbs. 50 cubic feet.

ESTEY GOTHIC ORGAN

THE Gothic Organ has long been noted as one of America's best-known and most popular reed organs. In tone and characteristics, this motor-operated Organ is similar to the Modernistic Organ. Its slightly greater volume, and its more formal design make it equally appropriate for clubs, schools, lodges, and chapels, as well as more formal residences.

Like all Estey Organs, its tone is *naturally*—not electronically—produced—with no distortion or vibration from electrical amplification. Its superb volume and resonance—like that of a master violin—derive entirely from superb craftsmanship and specially aged wood.

PRICES—F.O.B. FACTORY

Gothic Organ (Motor-Operated)

\$305 to \$450

Prices vary according to the type of action.

The Gothic Organ is available in Action 38, 97, or 98.

Furnished in Oak or Walnut. Back is finished. Bench to match. Length 4 feet 4½ inches. Depth 2 feet 2 inches. Height 4 feet ¾ inch. Weight boxed for domestic shipment 400 lbs. Weight boxed export shipment 510 lbs. 54 cubic feet. Motor operated only.

Specify AC or DC Current

ESTEY TWO MANUAL ORGAN

The Finest Reed Organ Ever Designed

ESTEY'S new Two Manual Organ has set an entirely new standard for reed organs. For quality, volume, and variety of tone, this magnificent organ can be compared only with the great pipe organs installed in churches and in the most pretentious homes.

Its volume—adequate for a room seating 500 persons—is obtained by revolutionary changes in design. It is *not electrically* amplified—there is no distortion or unpleasant vibration.

Six hundred and eighty-nine different reeds give this Organ its unprecedented variety of tone, of mood, and of emotion. Its remarkable electro-pneumatic action—its silent motor blower—make it the easiest of all large organs to play.

Yet this master instrument, a triumph of furniture design, requires *less* floor space than even the smallest grand piano.

And its *price* is far lower than that of an instrument with which it can be compared.

PRICE—F.O.B. FACTORY

Two Manual Organ (Motor Operated)

\$1075

See page 15 for description of Two Manual Action.

Furnished in Walnut only. Outside dimensions: Width 57½ inches. Depth of case 30¾ inches. Depth to back of bench 49¾ inches. Height 46¾ inches. Approximate weight packed 1000 lbs. Motor operated only.

Specify AC or DC Current.

A small, stylized illustration of a man and a woman in a boat. The man is at the stern, and the woman is at the bow. They are both looking towards the right. The boat is simple, with a single oar visible. The background is minimal, suggesting water and a distant shore.

Estey Reed Organs have the same true, *naturally produced* tone of the organs for which the great composers wrote. That's why the Estey Organ gives a more faithful interpretation of the beautiful masterpieces written for Organ.

An Estey Organ is easier to learn to play than any other musical instrument of similar importance. Your child can evoke its full beauty of tone by the lightest touch—where other instruments may discourage him in his first lessons by refusing to “behave” for him.

People who enjoy and appreciate are invariably impressed by the quality of an Estey Organ. When you know that the most discerning among your friends will be present, you will compliment you on your choice.

Yet instead of paying what a piano of comparable quality cost you no more than the l

If you are considering a metronome for your home—be sure to compare it with any other organ—but with a metronome. Compare it for tone, for general satisfaction.

Compare it for price—and get, when you buy an Estey

The secret of success for young people's parties

HUNDRED DIFFERENT PERSONALITIES

*Splendid for singing at
informal parties or with
your friends*

There is nothing like song for expressing friendship and comradeship. The full, rich tone of the Estey Organ, blending as it does with the human voice, makes it not just an instrument, but another superb and friendly voice.

*As good as an
orchestra for waltzes
and dancing*

The amazing variety of tone and mood in an Estey Organ makes it more similar to an orchestra than any other single instrument. You'll be amazed at how gaily and lightly an Estey Organ can be played.

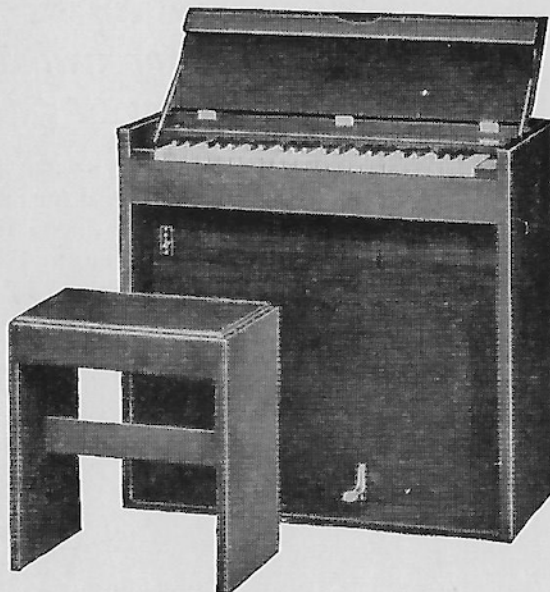

For song or dance, young people will find an Estey Organ a source of tremendous enjoyment. They soon find out how easily organ music can be "swung."

ESTEY JUNIOR ORGAN

PEDAL OPERATED

MOTOR OPERATED

The addition of a motor-blowing unit to the Junior Organ relieves you of all necessity for pedaling—and makes this instrument as easy and satisfactory to play as a small piano.

IDEAL FOR SINGING

The rich organ tones, produced by genuine reeds, blend with the human voice, to make this Organ far superior as an accompaniment for singing.

You'll enjoy its wide emotional range—you'll find it ideal for teaching your child to enjoy music and song—you'll agree it's a superb instrument for living room or recreation room, for playing or for singing.

Nowhere else will you find a musical instrument at so low a price that will give you the same genuine musical satisfaction as this Eštey Junior Organ. Its four-octave range is ample for all but the most complicated harmonies, and the volume control allows of a surprising range. Remember, this Junior Organ is a genuine reed organ—with all the loveliness of the fine organ tone. It's an instrument not just for children—but for the whole family.

The handsome simplicity of its design gives it a rightful place in your living room. When not in use, the music rack folds down to form a compact and useful piece of furniture—so light that it is easily moved.

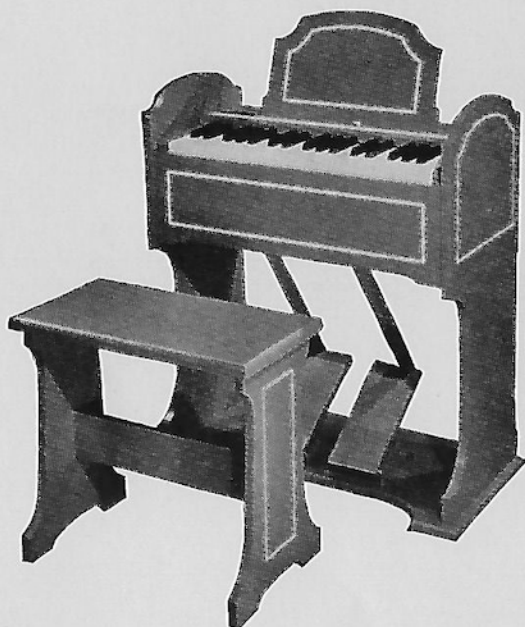

PRICES—F.O.B. FACTORY

Junior Organ (Pedal operated)	\$69.50
Junior Organ (Motor operated)	\$98.50

Choice of Walnut or Maple finish (special finishes at small extra cost). Four-Octave range. Standard keys and keyboard. Knee Swell Volume Control. Height 32 inches, length 30 inches. Weight boxed approximately 110 pounds. Price includes matching bench.

(Motor-operated Junior Organ has self-contained electric blowing unit, and pedal for volume control.)

ESTEY MINIATURE ORGAN

*A real musical instrument—
ideal for
children*

Develop your child's love of music by giving him an instrument *all his own*—an Estey Miniature Organ. It's a real Reed Organ of excellent tone, easy to play, and designed as a

charming piece of furniture for the playroom. Its range of three octaves is ample for playing the simpler music that is adapted to a young child.

Its convenient size and weight—only 31 lbs.—make it easy to move about or put away when not in use. The easy-to-play pedals are specially designed for children, and the whole instrument is scaled down to childish size. The full-size keyboard insures no difficulty in changing to the normal organ or piano.

Surprisingly enough, this real Organ costs no more than a good toy.

PRICE—F.O.B. FACTORY
Miniature Organ (Pedal
Operated) \$32.50

Finished in Walnut, Maple, Green with Buff Trim, Buff with Green or Blue Trim, Black with Gold or Silver Trim. 3-Octave Range. Standard keys and keyboard. Weight (boxed 50 lbs.). Height 32 inches, length 24 inches. Price includes matching bench.

PAUL WHITEMAN, Dean of modern music, shown playing the Estey Miniature Organ—with enjoyment, too.
